## Welcome

A warm welcome to the first newsletter from Nwanyichukwu Outreach.

I am really excited to share with our partners, supporters and well-wishers what we have been up to since the launch in December 2020.

Thank you so much for your invaluable support.

We won't be able to do this without you. Please read and share with your network.

We welcome your feedback.

Please email your comments or questions to us at

## THE STORY BEHIND WHAT WE DO

***"Training them to fish  
instead of feeding them fish"***

### About us

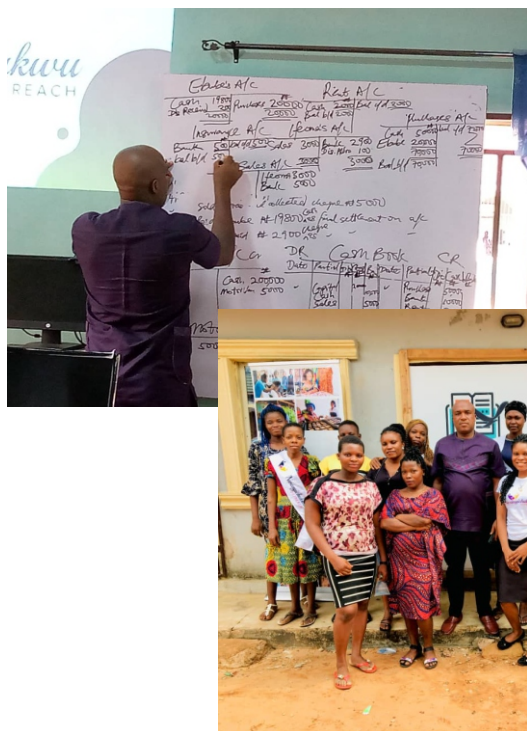

The purpose of Nwanyichukwu Outreach is to assist the less privileged and advance their development through its charitable projects designed to empower young women (aged 18-35 years) starting from the Enugwuabo Ufuma community in Anambra State, Nigeria.

### Our Mission

To teach, train and equip young women with the knowledge, practical skills and tools required to fulfil their purpose. The projects funded by this outreach will empower young women in a sustainable way by "training them to fish" instead of "feeding them fish."

### What we offer

- \*Grants for Apprenticeship
- \*Business Education
- \*Life Skills training

### WE'VE BEEN BUSY

#### Teaching our Business Education and Life Skills Modules

##### Our Business Education Modules taught so far:

- 17th Feb** - Leadership and Communication
- 17th March** - Goal setting and delegation
- 24th April** - Accounting concept and convention

##### Our Life skills modules delivered so far

- 17th Feb** - Selfcare and coping with stress
- 17th March** - Self Awareness
- 24th April** - Personal finance management and budgeting

## Counting the cost:

During the recruitment process, we remind our prospective apprentices that there will be tests and challenges along the way. No wise builder starts building a house without first counting the cost. **(Luke 14:25-33)**.

For each apprentice, determination means doggedness and a willingness to cast aside distractions, lay aside every weight and focus on the desired endpoint.

Our project worker is available to help identify difficulties early and lend support to help avert them.

## Meet Upoka

- \* **What were you doing before you applied to the Nwanyichukwu Outreach Projects?**
  - Farming
- \* **What apprenticeship are you doing?**
  - Hairdressing.
- \* **How do you think that this apprenticeship will help you?**
  - Since I started training, I've already started making little income from plaiting simple styles. After learning, the money I get can help my husband and also help me look after my children.
- \* **How useful has the Business Education sessions been?**
  - Very useful as I've learnt a lot e.g. how to treat my customers and many other things. Some ladies couldn't believe that a graduate is learning skills. They thought I was joking but now they see me attending my placement regularly and they know I am serious. Some of those ladies are now coming to the Business Education workshops and I encouraged them.

## Meet Nkiruka

- \* **What were you doing before?**
  - Nothing much just farming.
- \* **How will the Nwanyichukwu projects help you?**
  - As an apprentice, I am learning a skill in making soaps and detergents. It will be very useful to me once I finish learning the skill. I will have a skill to help myself, my family, my wider community.
- \* **How about the Life Skills & Business Education components?**
  - I have learnt a lot of things e.g. with business you will know when you are rising and falling in business, how to guide your business, the plan, The choices to make before you go ahead.
- \* **What will you say to others about the Nwanyichukwu projects?**
  - There is a proverb that says where you go and get something good you tell your sister about it. I am already telling everyone about it and encouraging others as I have learnt a lot..

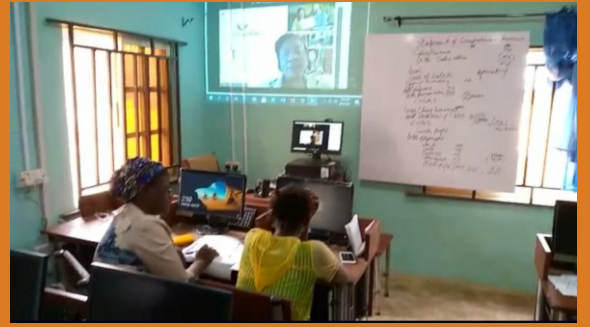

## A Firm Foundation

Here at Nwanyichukwu Outreach, we are building a lasting work and it requires a solid foundation. We have a dedicated prayer time on Wednesdays for our apprentices and all those connected with us. The outreach was birthed on an altar of prayer and as we welcome women with a desire to train them to fish, prayer remains an essential part of this work. We covet your continued prayers for the team working behind the scene at the Outreach, our donors, the apprentices and all the women that access the Business Education and Life skills projects. God bless you richly.

# GOAL SETTING

*"Setting goals gives you long-term  
Vision and short-term motivation"*

*Mrs Amaoge Nwajei*

### Steps on how to set goals

1. Think about the results you want to see
2. Create SMART goals
  - \* Specific
  - \* Measurable
  - \* Attainable
  - \* Realistic
  - \* Time-bound
3. Write your goals down
4. Create an action plan
5. Create a timeline
6. Take action
7. Re-evaluate and assess your progress
